Fields

Primary: Urban and Regional Economics; Applied Microeconomics
Secondary fields: Applied Econometrics; Labor Economics; Computational Economics

Education

Binghamton University, USA Aug 2021 – present
Ph.D. in Economics (Expected May 2027)
Committee *– David Slichter (chair), Andreas Pape, Solomon W. Polachek, and Ivan Korolev*

SP Jain School of Management, Singapore Sep 2018 – Jul 2020
Executive Master of Business Administration (EMBA) in Finance
Thesis: Behavioral factors in stock markets

Mahatma Gandhi Mission's College of Engineering & Technology, India Oct 2001 – Jun 2005
Bachelor of Technology in Electronics & Telecommunications

Job Market Paper

- When Does Crime Enter House Prices? Evidence from Chicago
  I estimate how crime affects housing prices in Chicago. Although homebuyers presumably care about crime, most offenses have a near-zero effect on sale prices and asking rents. I argue that this is consistent with limited information: crime only changes buyers' valuations if they learn of an incident and revise their expectations about future exposure. First, price effects are hyperlocal even though the predictive value of crimes is not. Second, price effects strengthen with real estate agents' local experience. Third, even within an offense, the effect depends on where at the property the incident occurred. These patterns are consistent with buyers responding to incidents they learn about rather than to the future crime those incidents predict.

Other Research

Methods and Research Practice

- Causal Forests versus Penalized Splines for Heterogeneous Treatment Effects *(with Ivan Korolev and Abiodun Musbaudeen)* [*Economics Letters*, 268 (2026), 113205]
- Monte-Carlo Tests for Identification and Validation of Stochastic Agent-Based Models *(with Christopher Zosh, Yixin Ren, and Andreas Pape)* [*Revise & Resubmit*, *JASSS*]
- AI-assisted teams outperform AI-led teams but not human-only teams in assessing research reproducibility in quantitative social science *(Brodeur et al.)* [*PNAS*, 123(22) (2026), e2524747123; consortium-authored]

Public Policy and Institutions

- The Effects of Diversity Statements in Faculty Hiring *(with David Slichter)* [*Working paper*]
- Cashing the Credit: Anomalous Billing and Firm Dynamics in Italy's Superbonus 110% *(with Marcello Graziano, Maurizio Fiaschetti, and Cristina Connolly)* [*Working paper*]

Neighborhoods and Spatial Inequality

- Social Context in the Schelling Model using LLMs *(with Andreas Pape, Srikanth Iyer, Yixin Ren, Christopher Zosh, Mohammed Mahinur Alam, and Carl Lipo)* [*Work in progress*]
- Food Swamps, Obesity, and Metabolic Risks [*Work in progress*]

GRANTS AND AWARDS

- Graduate Student Research Fund, Binghamton University (2026), for MLS transaction data.
- Dean's List (Term II, III), SP Jain School of Management, Singapore (2019–2020).

RESEARCH AFFILIATIONS

- Fellow, Institute for Replication, since 2026

CONFERENCE PRESENTATIONS

2027 American Economic Association (AEA) (scheduled)

2026 Southern Economic Association (SEA) (scheduled)
Western Economic Association International (WEAI)
Society for the Advancement of Behavioral Economics (SABE)
American Society of Health Economists (ASHEcon)
Midwest Economics Association (MEA)
American Economic Association (AEA)

2025 Southern Economic Association (SEA)
Western Economic Association International (WEAI)
Finger Lakes (FLX) Economics of Education Conference
Eastern Economic Association (EEA)

2024 Eastern Economic Association (EEA)

ONLINE PRESENTATIONS

2026 Canadian Economics Association (CEA)
2025 American Political Science Association (APSA)

POSTER PRESENTATIONS

2026 Society for Causal Inference (SCI)
2025 Association for Public Policy Analysis & Management (APPAM)

TEACHING

Binghamton University, NY 2022 – present

Instructor
Economics of Poverty and Discrimination (ECON 144), Winter 2026. Sole instructor

Teaching Assistant

2026 Macroeconomic Theory (ECON 362, Fall, current)
Introduction to Econometrics (ECON 466, Fall, current)
Economics of Education (ECON 448, Spring)

2025 Behavioral Economics (ECON 483C, Fall)
Agent-Based Modeling with Python (ECON 570/670, Spring)

2024 Forecasting (ECON 467, Fall)
Introduction to Econometrics (ECON 466, Fall)
Econometrics (ECON 616, Spring)

2023 Economic Development of Latin America (ECON 483, Fall)
U.S. Financial Systems: Markets and Institutions (ECON 350, Spring)

2022 Economics of Corporations (ECON 454, Fall)

Teaching Simulations
Open-access interactive simulations for economics and statistics

SERVICE

Session Discussant, Western Economic Association International (2026)
Conference Volunteer, Society for Causal Inference Annual Conference (2026)
Session Discussant, Midwest Economics Association Annual Meeting (2026)
Session Chair and Discussant, American Political Science Association (2025)
Session Discussant, Eastern Economic Association Annual Conference (2024)

ADDITIONAL TRAINING & WORKSHOPS

Supplementary Methods Training

- Advanced Confounding Adjustment, Harvard T.H. Chan School of Public Health, 2026
- Causal Inference Workshop (Advanced), Northwestern University, 2025
- Causal Inference Workshop (Main), Northwestern University, 2025

Pedagogical Workshops/Conferences

- Conference on Teaching and Research in Economic Education (CTREE), AEA, 2026
- TeachECONference (CTaLE), 2026

PROFESSIONAL EXPERIENCE

Data Analyst, Graduate Admissions Office, Binghamton University Aug 2021 – Aug 2022

Industry, India & Singapore Jun 2005 – Aug 2021
Software engineering, business analysis, and project management at Accenture, Grab, Jones Lang LaSalle, Agilent Technologies, and CSC (now DXC Technology). JLL Pinnacle Award, 2017; Agilent Technologies Appreciation Award for Innovation, 2008, and Outstanding Individual and Team Performance Awards, 2009–2011.

COMPUTATIONAL SKILLS

Methods: panel methods; causal inference; spatial data construction; web scraping; agent-based modeling (including LLM agents); machine learning (causal forests, gradient boosting)
Spatial data analysis: large-scale geocoding, spatial matching, and spatial inference.
Software: Stata, R, Python, SQL, Git, QGIS

LANGUAGES

English (Fluent), Hindi (Native)
